#### 2. HAZARDS IDENTIFICATION:

Hazard classification	
Physical hazards	
Flammable liquids	: Category 2
Health hazards	
Eye irritation	: Category 2
Carcinogenicity	: Category 1B
Specific target organ toxicity – Single exposure, Oral	: Category 3
Labels elements	:
Hazard symbol	
Signal word	: Danger
Hazard statement	<ul> <li>Highly flammable liquid and vapor.</li> <li>Causes serious eye irritation.</li> <li>May cause respiratory irritation.</li> <li>May cause cancer.</li> </ul>
Precautionary statement	
Prevention	: Obtain special instructions before use. Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Do not handle until all safety precautions have been read and understood. Wear protective gloves/ protective clothing/ eye protection/ face protection. Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking. Keep container tightly closed. Ground/ bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

Response	:	IF exposed or concerned: Get medical advice/ attention.
		IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/
		shower.
		IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
		IF INHALED: Remove person to fresh air and keep comfortable for breathing.
		IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
Storage	:	Store in a dry & well-ventilated place. Keep container tightly closed. Containers which are
		opened must be carefully resealed and kept upright to prevent leakage.
Disposal	:	Dispose of contents/container to an appropriate treatment and disposal facility in
		accordance with applicable laws and regulations, and product characteristics at time of
		disposal.
Other hazards which do not	:	This substance/mixture contains no components considered to be either persistent,
result in GHS classification		bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

4. FIRST AID MEASURES:			

General information	Get medical advice/attention if you feel unwell. Show this safety data sheet to the attendance.	e doctor in
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do No vomiting. If vomiting occurs, keep head low so that stomach content doesn't ge ungs.	
Inhalation	Move to fresh air. Call a physician or poison control center immediately. If breath provide artificial respiration. If breathing is difficult, give oxygen. Get medical attention if symptoms persist.	ning stops,
Skin contact	mmediately flush with plenty of water for at least 15 minutes. If easy to do, remo enses. Get medical attention.	ve contact
Eye contact	mmediately flush with plenty of water for at least 15 minutes. If easy to do, remo enses. Get medical attention.	ve contact
Most important symptoms/effects, acute and delayed	The most important known symptoms and effects are described in the labelling (s 2.0)	ee section
Indication of immediate medical attention and special treatment needed	No data available.	

#### 5. FIRE FIGHTING MEASURES:

**General information** : Flammable liquid and vapor.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing : Water spray, foam, dry powder or carbon dioxide.

media	
Unsuitable extinguishing media	: Avoid water in straight hose stream; will scatter and spread fire.
Specific hazards arising from the chemical	<ul> <li>Vapors may cause a flash fire or ignite explosively. Vapors may travel considerable distance</li> <li>to a source of ignition and flash back. Prevent buildup of vapors or gases to explosive</li> <li>concentrations. Vapor from the solvent may accumulate in container headspace resulting in flammability hazard. Heat may cause the containers to explode.</li> </ul>
Special protective equipmen	and precautions for firefighters
Special firefighting procedures	Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting the fire. Fight fire from a protected location. Move containers from fire area if you can do so without risk.
Special protective equipment for fire-fighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
6. ACCIDENTAL RELEASE M	EASURES:
Personal precautions, protective equipment and emergency procedures	<ul> <li>ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).</li> <li>Avoid breathing mists or vapors. Keep upwind. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.</li> </ul>
Methods and material for containment and cleaning up	<ul> <li>Eliminate all ignition sources if safe to do so. Use only non-sparking tools. Take precautionary measures against static discharges. Stop leak if possible without any risk.</li> <li>Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. Dike far ahead of larger spill for later recovery and disposal.</li> </ul>
Notification Procedures	Prevent entry into waterways, sewer, basements or confined areas. Inform authorities if large amounts are involved.
Environmental precautions	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

#### 7. HANDLING AND STORAGE:

Precautions for safe handling	Do not handle until all safety precautions have been read and understood. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. Ground/bond : container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools. Wear protective gloves/protective clothing/eye
Conditions for safe storage, including any incompatibilities	<ul> <li>Protection / face protection. Avoid contact with eyes, skin, and clothing. Do not breathe mist or vapor. Use only with adequate ventilation. Wash hands thoroughly after handling. Keep away from food, drink and animal feeding stuffs. Keep container tightly closed in a dry, well-ventilated place. Ground container and transfer equipment to eliminate static electric</li> <li>sparks. Comply with all national, state, and local codes pertaining to the storage, handling, dispensing, and disposal of flammable liquids.</li> </ul>
