MATERIAL SAFETY DATA SHEET

CAS Number: 107-11-9

Version:02

PRODUCT NAME: ALLYLAMINE

1. IDENTIFICATION:

Product Code : 93608, 98839

Company Name : ADVENT CHEMBIO PRIVATE LIMITED

Address W-279, MIDC, TTC INDUSTRIAL AREA, THANE-BELAPUR ROAD, RABALE,

NAVI MUMBAI - 400 701, MAHARASHTRA, INDIA.

E-mail : sales@adventchembio.com

WEBSITE : <u>www.adventchembio.com</u>

Company Phone Number : +91 77770 84837

2. HAZARDS IDENTIFICATION:

Hazard classification

Physical hazards

Flammable liquids : Category 2

Health hazards

Acute toxicity, Oral : Category 3

Acute toxicity, Dermal : Category 1

Acute toxicity, Inhalation : Category 1

Skin corrosion : Sub-category 1A

Serious eye damage : Category 1

Long-term (chronic) aquatic

hazard

Labels elements

Hazard symbol

iazaro

Signal word : Danger

Hazard statement Highly flammable liquid and vapor.

Toxic if swallowed.

Category 2

: Fatal in contact with skin or if inhaled. Causes severe skin burns and eye damage. Toxic to aquatic life with long lasting effects.

Precautionary statement

Prevention: Obtain special instructions before use.

Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Do not handle until all safety

precautions have been read and understood.

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Pg. 2 of 8

MATERIAL SAFETY DATA SHEET

Version:02

PRODUCT NAME: ALLYLAMINE

Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking.

Keep container tightly closed. Ground/bond container and receiving equipment.

Use explosion-proof electrical/ventilating/lighting/equipment.

Use only non-sparking tools. Take precautionary measures against static discharge.

Response IF exposed or concerned: Get medical advice/ attention.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/

CAS Number: 107-11-9

shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

Store in a dry & well-ventilated place. Keep container tightly closed. Containers which are Storage

opened must be carefully resealed and kept upright to prevent leakage.

Disposal Dispose of contents/container to an appropriate treatment and disposal facility in

accordance with applicable laws and regulations, and product characteristics at time of

Other hazards which do not :

result in GHS classification

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at

levels of 0.1% or higher.

COMPOSITION/INFORMATION ON INGRADIENTS:

Ingredient	CAS Number	Percent	Hazardous
Allyamine	107-11-9	NLT 98.0%	Yes

FIRST AID MEASURES:

General information : Get medical advice/attention if you feel unwell. Show this safety data sheet to the doctor in attendance.

Give water to drink (two glasses at most). Seek medical advice immediately. In exceptional cases only, if medical care is not available within one hour, induce vomiting (only in persons

> who are wide awake and fully conscious), administer activated charcoal (20 - 40 g in a 10% slurry) and consult a doctor as quickly as possible. Pulmonary failure possible after

aspiration of vomit. Call a physician immediately. Do not attempt to neutralize.

Move to fresh air. Call a physician or poison control center immediately. If breathing stops, Inhalation

provide artificial respiration. If breathing is difficult, give oxygen.

Get medical attention if symptoms persist.

Skin contact Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact

lenses. Get medical attention.

Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact Eye contact

lenses. Get medical attention.

Most important

symptoms/effects, acute

and delayed

Ingestion

Indication of immediate medical attention and

special treatment needed

: The most important known symptoms and effects are described in the labelling.

: No data available.

5. FIRE FIGHTING MEASURES:

General information : Highly flammable liquid and vapor.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing

media

: Water, foam, dry powder or carbon dioxide.

Unsuitable extinguishing

media

For this substance/mixture no limitations of extinguishing agents are given.

Specific hazards arising from the chemical

Carbon oxides Nitrogen oxides (NOx) Combustible. Pay attention to flashback. Vapors are heavier than air and may spread along floors. Development of hazardous combustion gases

or vapors possible in the event of fire. Forms explosive mixtures with air at ambient

temperatures.

Special protective equipment and precautions for firefighters

Special firefighting

procedures

Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting

the fire. Fight fire from a protected location. Move containers from fire area if you can do so

without risk.

Special protective

equipment for fire-fighters

Firefighters must use standard protective equipment including flame retardant coat, helmet

with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

6. ACCIDENTAL RELEASE MEASURES:

Personal precautions, protective equipment and emergency procedures ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Avoid breathing mists or vapors. Keep upwind. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.

Methods and material for containment and cleaning

up

Eliminate all ignition sources if safe to do so. Use only non-sparking tools. Take precautionary measures against static discharges. Stop leak if possible without any risk.

Absorb spill with vermiculity or other inert material, then place in a container for chemical

: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. Dike far ahead of larger spill for later recovery and disposal.

Notification Procedures

Prevent entry into waterways, sewer, basements or confined areas. Inform authorities if large amounts are involved.

Environmental precautions

Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

7. HANDLING AND STORAGE:

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting/equipment. Use only non-sparking tools. Wear protective gloves/protective clothing/eye protection/ face protection. Avoid contact with eyes, skin, and clothing. Do not breathe mist

or vapor. Use only with adequate ventilation. Wash hands thoroughly after handling.

MATERIAL SAFETY DATA SHEET

PRODUCT NAME: ALLYLAMINE

Conditions for safe storage,

including any incompatibilities

Keep away from food, drink and animal feeding stuffs. Keep container tightly closed in a dry, well-ventilated place. Ground container and transfer equipment to eliminate static electric sparks. Comply with all national, state, and local codes pertaining to the storage, handling,

CAS Number: 107-11-9

dispensing, and disposal of flammable liquids.

8. EXPOSURE CONTROLS PERSONAL PROTECTION:

Control parameters

Appropriate engineering

controls : No data available

Individual protection measures, such as personal protective equipment

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended.

General information ventilation, or other engineering controls to maintain airborne levels below recommended

exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye wash and safety shower must be available in the immediate work

area. Use explosion-proof ventilation equipment.

Eye/face protection. Wear safety glasses with side shields (or goggles).

Hand protection . Chemical resistant gloves.

Other . Wear suitable protective clothing.

Respiratory protection . Required when vapors/aerosols are generated.

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and

Hygiene measures

Hygiene measures

rote eating, drinking, and/or shoking. Routinely wash work clothing and protective equipment to remove contaminants. Provide eyewash station and safety shower.

Avoid contact with eyes, skin, and clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES:

Appearance : Clear, colorless liquid

Odor : amine-like

Solubility : Miscible in water.

Molecular Weight : 57.09 g/mol

Density : 0.760-0.762 g/cm3 at 25°C

pH : 11.2 at 5.7 g/l at 20 °C

% Volatiles by volume @

21C (70F)

10. STABILITY AND REACTIVITY:

Vapors may form explosive mixture with air. Reactivity

Chemical stability Material is stable under ambient conditions..

Possibility of hazardous

Violent reactions possible with: Strong oxidizing agents reactions

Conditions to avoid Warming

Incompatible materials Acids, Oxidizing agents, Chlorine, Hypochlorites, Halogens, Chemically active metals.

Hazardous decomposition

In the event of fire: see section 5 products

11. TOXICOLOGICAL INFORMATION:

Information on toxicological effects

Acute toxicity (list all possible routes of exposure)

Oral Product : LD 50 (Rat): male- 106 mg/kg

Dermal Product LD 50 (Rabbit): male- 35 mg/kg

Inhalation Product LD 50 (Rat): 8 h-177 ppm

Repeated dose toxicity

Discharge into the environment must be avoided.

13. DISPOSAL CONSIDERATION:

Disposal instructions: Discharge, treatment, or disposal may be subject to national, state, or local laws. Disposal

recommendations are based on uncontaminated material.

Contaminated packaging Since emptied containers retain product residue, follow label warnings even after container

is emptied.

14. TRANSPORT INFORMATION:

ADR/RID	UN No. UN 2334	UN proper shipping name Allylamine	Hazard Class(es) 6.1 (3)	Packaging group I	Marine Pollutant Yes
