## 2. HAZARDS IDENTIFICATION:

: Category 4 Acute toxicity, Inhalation

**Skin Corrosion** : Category 1 A

Chronic aquatic toxicity : Category 3

Labels elements

Signal word

Hazard statement Highly flammable liquid and vapor.

Danger

Causes serious eye irritation. Harmful if inhaled.

May cause drowsiness or dizziness.

**Precautionary statement** 

Hazard symbol

Prevention : Obtain special instructions before use.

Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Do not handle until all safety

precautions have been read and understood.

Wear protective gloves/ protective clothing/ eye protection/ face protection. Keep away from heat/sparks/open flames/ hot surfaces. No smoking.

Keep container tightly closed. Ground/bond container and receiving equipment.

Use explosion-proof electrical/ventilating/lighting/equipment.

Use only non-sparking tools. Take precautionary measures against static discharge.

IF exposed or concerned: Get medical advice/ attention. Response

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/

shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

Store at ambient temperature in a dry and well ventilated place. Keep container tightly Storage

closed. Containers which are opened must be carefully resealed and kept upright to prevent

leakage.

Pg. 2 of 8

Version:02

# **MATERIAL SAFETY DATA SHEET**

CAS Number: 76-05-1

PRODUCT NAME: TRIFLUOROACETIC ACID

: Dispose of contents/container to an appropriate treatment and disposal facility in

accordance with applicable laws and regulations, and product characteristics at time of

disposal.

Other hazards which do not

result in GHS classification

Disposal

Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor. May cause flash fire or

explosion.

**COMPOSITION/INFORMATION ON INGRADIENTS:** 

Ingredient **CAS Number Percent Hazardous** 

Trifluoroacetic Acid 76-05-1 NLT 99.0% Yes

4. FIRST AID MEASURES:

**General information** : Get medical advice/attention if you feel unwell. Show this safety data sheet to the doctor in

attendance.

Ingestion Call a physician or poison control center immediately. Rinse mouth. Do NOT induce

vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the

Move to fresh air. Call a physician or poison control center immediately. If breathing stops,

Inhalation provide artificial respiration. If breathing is difficult, give oxygen.

Get medical attention if symptoms persist.

Skin contact Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact

lenses. Get medical attention.

Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact Eye contact

lenses. Get medical attention.

Most important

symptoms/effects, acute

and delayed

Indication of immediate

medical attention and

special treatment needed

Toxic if inhaled. Toxic if swallowed. Toxic in contact with skin. Irritating to eyes, respiratory system and skin.

: No data available.

FIRE FIGHTING MEASURES:

: Flammable liquid and vapor.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing

General information

media

Water spray, foam, dry powder or carbon dioxide.

Unsuitable extinguishing

media

: Avoid water in straight hose stream; will scatter and spread fire.

Specific hazards arising

from the chemical

Vapors may cause a flash fire or ignite explosively. Vapors may travel considerable distance to a source of ignition and flash back. Prevent buildup of vapors or gases to explosive

concentrations. Vapor from the solvent may accumulate in container headspace resulting in

flammability hazard. Heat may cause the containers to explode.

Special protective equipment and precautions for firefighters

Pg. 3 of 8

# **MATERIAL SAFETY DATA SHEET**

Version:02

PRODUCT NAME: TRIFLUOROACETIC ACID

Special firefighting

procedures

Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting

CAS Number: 76-05-1

the fire. Fight fire from a protected location. Move containers from fire area if you can do so

without risk.

Special protective equipment for fire-fighters Firefighters must use standard protective equipment including flame retardant coat, helmet

with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

#### **ACCIDENTAL RELEASE MEASURES:**

Personal precautions, protective equipment and emergency procedures

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Avoid breathing mists or vapors. Keep upwind. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.

Methods and material for containment and cleaning Eliminate all ignition sources if safe to do so. Use only non-sparking tools. Take precautionary measures against static discharges. Stop leak if possible without any risk.

Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. Dike far ahead of larger spill for later recovery and disposal.

**Notification Procedures** 

Prevent entry into waterways, sewer, basements or confined areas. Inform authorities if

large amounts are involved.

**Environmental precautions** 

Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do

so. Avoid discharge into drains, water courses or onto the ground.

#### **HANDLING AND STORAGE:**

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. Ground/bond

container and receiving equipment. Use explosion-proof

electrical/ventilating/lighting/equipment. Use only non-sparking tools. Wear protective

gloves/protective clothing/eye

protection/ face protection. Avoid contact with eyes, skin, and clothing. Do not breathe mist or vapor. Use only with adequate ventilation. Wash hands thoroughly after handling.

Conditions for safe storage, including any

incompatibilities

Keep away from food, drink and animal feeding stuffs. Store at ambient temperature in a dry and well ventilated place.

Keep the container tightly closed, away from heat. Containers which are opened must be

carefully resealed and kept upright to prevent leakage.

Ground container and transfer equipment to eliminate static electric sparks. Comply with all national, state, and local codes pertaining to the storage, handling, dispensing, and disposal

of flammable liquids.

# 8. EXPOSURE CONTROLS PERSONAL PROTECTION:

**Exposure limit** 

Appropriate engineering

Handle in accordance with good industrial hygiene and safety practice. Wash hands before

breaks and at the end of workday.

controls

Individual protection measures, such as personal protective equipment

**General information** : Good general ventilation (typically 10 air changes per hour) should be used. Ventilation

Eye/face protection

Hygiene measures

### **ADVENT CHEMBIO PRIVATE LIMITED**

rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye wash and safety shower must be available in the immediate work

CAS Number: 76-05-1

area. Use explosion-proof ventilation equipment. Wear safety glasses with side shields (or goggles).

**Hand protection** . Chemical resistant gloves.

Other . Wear suitable protective clothing.

**Respiratory protection** Dust respirator. Follow local and national regulations. Chemical

respirator with organic vapor cartridge.

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and

protective equipment to remove contaminants. Provide eyewash station and safety shower.

Avoid contact with eyes, skin, and clothing.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES:

**Appearance** : Colorless, hygroscopic fuming liquid.

Odor : pungent

Solubility : Miscible with water

Molecular Weight : 114.02 g/mol

**Specific Gravity** : 1.489 g/cm3 at 25°C

**pH** : 1.0 at 1 g/l at 20 °C.

% Volatiles by volume @

21C (70F)

# **MATERIAL SAFETY DATA SHEET**

Version:02

## PRODUCT NAME: TRIFLUOROACETIC ACID

The product components are not classified as environmentally hazardous. However, this

CAS Number: 76-05-1

does not exclude the possibility that large or frequent spills can have a harmful or damaging

effect on the environment.

#### 13. DISPOSAL CONSIDERATION:

**Disposal instructions** 

Other adverse effects

: Discharge, treatment, or disposal may be subject to national, state, or local laws. Disposal

recommendations are based on uncontaminated material.

**Contaminated packaging** 

Since emptied containers retain product residue, follow label warnings even after container

is emptied.
