# **MATERIAL SAFETY DATA SHEET**

Version:02

PRODUCT NAME: FORMIC ACID CAS Number: 64-18-6

1. IDENTIFICATION:

**Product Code** : 93264, 90289, 90085, 90086, 98181

Company Name : ADVENT CHEMBIO PRIVATE LIMITED

Address W-279, MIDC, TTC INDUSTRIAL AREA, THANE-BELAPUR ROAD, RABALE,

NAVI MUMBAI - 400 701, MAHARASHTRA, INDIA.

E-mail : sales@adventchembio.com

**WEBSITE** : www.adventchembio.com

**Company Phone Number** : +91 77770 84837

#### 2. HAZARDS IDENTIFICATION:

Hazard classification

**Physical hazards** 

Corrosive to Metals : Category 3

**Health hazards** 

Hazard symbol

Signal word

Acute toxicity, Oral : Category 4

Acute toxicity, Inhalation : Category 3

**Skin corrosion** : Category 1

Serious eye damage : Category 1

Labels elements :

**~** 

**Hazard statement** Flammable liquid and vapor.

Harmful if swallowed.

Causes severe skin burns and eye damage.

Toxic if inhaled.

**Precautionary statement** 

**Prevention**: Obtain special instructions before use.

Danger

Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Do not handle until all safety

precautions have been read and understood.

Wear protective gloves/ protective clothing/ eye protection/ face protection. Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking.

Keep container tightly closed. Ground/bond container and receiving equipment.

Use explosion-proof electrical/ventilating/lighting/equipment.

Use only non-sparking tools. Take precautionary measures against static discharge.

Pg. 2 of 8

## **MATERIAL SAFETY DATA SHEET**

Version:02

PRODUCT NAME: FORMIC ACID CAS Number: 64-18-6

**Response** : IF exposed or concerned: Get medical advice/ attention.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/

shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

: Store at ambient temperature in a dry and well ventilated place. Keep container tightly closed. Containers which are opened must be carefully resealed and kept upright to prevent

leakage.

Disposal : Dispose of contents/container to an appropriate treatment and disposal facility in

accordance with applicable laws and regulations, and product characteristics at time of

disposal.

Other hazards which do not : result in GHS classification

Storage

Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor. May cause flash fire or

explosion.

#### 3. COMPOSITION/INFORMATION ON INGRADIENTS:

Ingredient	CAS Number	Percent	Hazardous
Formic Acid	64-18-6	NLT 99.0%	Yes

#### 4. FIRST AID MEASURES:

**General information** : Get medical advice/attention if you feel unwell. Show this safety data sheet to the doctor in

attendance.

Ingestion Call a physician or poison control center immediately. Rinse mouth. Do NOT induce

: vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the

lungs.

Move to fresh air. Call a physician or poison control center immediately. If breathing stops,

**Inhalation** : provide artificial respiration. If breathing is difficult, give oxygen.

Get medical attention if symptoms persist.

**Skin contact** Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact

lenses. Get medical attention.

**Eye contact** Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact

lenses. Get medical attention.

Most important symptoms/effects, acute

and delayed

Indication of immediate medical attention and special treatment needed

Toxic if inhaled. Toxic if swallowed. Toxic in contact with skin. Irritating to eyes, respiratory

system and skin.

Symptoms may be delayed. Treat symptomatically.

Pg. 3 of 8

# **MATERIAL SAFETY DATA SHEET**

Version:02

PRODUCT NAME: FORMIC ACID CAS Number: 64-18-6

#### **FIRE FIGHTING MEASURES:**

Flammable liquid and vapor. General information

Suitable (and unsuitable) extinguishing media

Suitable extinguishing

media

Water spray, foam, dry powder or carbon dioxide.

Unsuitable extinguishing

media

Avoid water in straight hose stream; will scatter and spread fire.

Specific hazards arising from the chemical

Vapors may cause a flash fire or ignite explosively. Vapors may travel considerable distance to a source of ignition and flash back. Prevent buildup of vapors or gases to explosive

concentrations. Vapor from the solvent may accumulate in container headspace resulting in

flammability hazard. Heat may cause the containers to explode.

Special protective equipment and precautions for firefighters

Special firefighting

procedures

Use water spray to keep fire-exposed containers cool. Water may be ineffective in fighting the fire. Fight fire from a protected location. Move containers from fire area if you can do so

without risk.

Special protective

equipment for fire-fighters

Firefighters must use standard protective equipment including flame retardant coat, helmet

with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

#### **ACCIDENTAL RELEASE MEASURES:**

Personal precautions, protective equipment and emergency procedures

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Avoid breathing mists or vapors. Keep upwind. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away.

Methods and material for containment and cleaning

up

Eliminate all ignition sources if safe to do so. Use only non-sparking tools. Take precautionary measures against static discharges. Stop leak if possible without any risk.

Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. Dike far ahead of larger

spill for later recovery and disposal.

**Notification Procedures** 

Prevent entry into waterways, sewer, basements or confined areas. Inform authorities if large amounts are involved.

**Environmental precautions** 

Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

#### **HANDLING AND STORAGE:**

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. Ground/bond

container and receiving equipment. Use explosion-proof

electrical/ventilating/lighting/equipment. Use only non-sparking tools. Wear protective

gloves/protective clothing/eye

protection/ face protection. Avoid contact with eyes, skin, and clothing. Do not breathe mist or vapor. Use only with adequate ventilation. Wash hands thoroughly after handling.

Conditions for safe storage,

including any

Keep away from food, drink and animal feeding stuffs.

Store at ambient temperature in a dry and well ventilated place.

TE LIMITED Pg. 4 of 8

Version:02

## **MATERIAL SAFETY DATA SHEET**

PRODUCT NAME: FORMIC ACID CAS Number: 64-18-6

**incompatibilities** Keep the container tightly closed, away from heat. Containers which are opened must be

carefully resealed and kept upright to prevent leakage.

Ground container and transfer equipment to eliminate static electric sparks. Comply with all national, state, and local codes pertaining to the storage, handling, dispensing, and disposal

of flammable liquids.

# 8. EXPOSURE CONTROLS PERSONAL PROTECTION:

Control parameters : Ingredients with workplace control parameters

Individual protection measures, such as personal protective equipment

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust

General information ventilation, or other engineering controls to maintain airborne levels below recommended

exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye wash and safety shower must be available in the immediate work

area. Use explosion-proof ventilation equipment.

**Eye/face protection** . Wear safety glasses with side shields (or goggles).

**Hand protection** . Chemical resistant gloves.

Other . Wear suitable protective clothing.

**Respiratory protection** In case of inadequate ventilation use suitable respirator. Chemical

respirator with organic vapor cartridge.

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and

protective equipment to remove contaminants. Provide eyewash station and safety shower.

Avoid contact with eyes, skin, and clothing.

## 9. PHYSICAL AND CHEMICAL PROPERTIES:

**Appearance** : Clear, colorless liquid

**Odor** : Pungent odor.

**Solubility** : Miscible with water, ethanol, ether and glycerol.

Formula : HCOOH

Molecular Weight : 46.03

Specific Gravity : 1.216 - 1.220 g/mL at 25 °C

**pH** : 2.1 10 g/L aq.sol

% Volatiles by volume @

21C (70F)

Hygiene measures

: No data available.

**Boiling Point** : 100 - 101 °C - lit

**Melting Point** : 8.2 - 8.4 °C

Flash Point : 49.5 °C

## 13. DISPOSAL CONSIDERATION:

**Disposal instructions** 

: Discharge, treatment, or disposal may be subject to national, state, or local laws. Disposal recommendations are based on uncontaminated material.

**Contaminated packaging** 

Since emptied containers retain product residue, follow label warnings even after container

is emptied.

#### 14. TRANSPORT INFORMATION:

ADR/RID	UN No. UN 1779	UN proper shipping name Formic Acid	Hazard Class(es) 8 (3)	Packaging group II	Marine Pollutant No
